INFORMATION TECHNOLOGY

A practical Information Technology student with significant experience in Database Management, MVC Framework Development, Cisco Packet Tracer, Mobile Application Development, and Data Analytics. I have worked with some organizations and participated in workshops, ensuring a grounded and holistic approach to my profession.

ACADEMIC PROJECT/EXPERIENCE

OJT | EY GDS – Assurance - Data Analytics (January 2025 – April 2025)
- Utilized Alteryx Designer for transforming and preparing datasets provided by the audit team.
- Gained exposure to basic accounting principles and their relevance to assurance services.
- Adapted quickly to a corporate work environment and developed professionalism.
- Improved soft skills such as communication, collaboration, and problem-solving in real-world scenarios.

Capstone | A Mobile Application Recommending System for Indoor House Repair & Maintenance in Manila | Flutter
- Developed mobile application to connect skilled workers with customers for services in Manila.
- A functional and technical application of a Recommending System.

Networking | Cisco Packet Tracer
- Designed and constructed various network topologies.
- Set up devices with real-world configurations.

Programming | Java
- Applied object-oriented programming concepts in Java.
- Gained hands-on experience in implementing modular code.

Data Infrastructure | DB Management
- Utilized tools like MS Excel, Visual Paradigm, MySQL, and Canva.

SKILLS

- Effective Time Management
- Continuous Learner
- Cisco Packet Tracer in Networking
- Problem-Solving
- Adaptable
- Programming (Java)
- Active Listening
- CodeIgniter Framework Development
- Data Management (MySQL)
- Alteryx Designer
- Soft Skills in Workplace Setting
